**Business Growth Expert puts Women Business Owners on the fast track to sustainable growth**

**Colton CA**—Cynthia Renee Frazier, AKA the Business Growth Expert has launched an interactive conference website especially designed for women in business looking to become a million-dollar company in 5 years or less. This dynamic captivating website offers a revolutionary way to grow a company combining video and audio into an online exhibit booth.

“Less than 5% of Women Business Owners generate a million dollars in revenue,” said Cynthia, Co-Founder of the Energy Tour Café and proud sponsor of the Walk the Walk for Financial Growth Summit. “Using technology to its fullest will go a long way to closing that gap,” she continued.

What’s most exciting is that Cynthia has assembled a panel of over 20 experts who are world-renowned and highly recognized in their field to share their knowledge and expertise with visitors.

“I would strongly encourage any woman business owner to connect with Cynthia and see what new heights they can reach!” said Pamela Ackerman, President of [www.WebExecutiveAssistant.com](http://www.WebExecutiveAssistant.com). “Cynthia is full of energy, vision and a drive to empower business women to reach new heights. Since meeting her, I have been inspired to start two new companies of my own.” Pam continued.

Women business owners are the fastest growing market with over \$3 trillion in purchasing power. According to the Center for women’s Business Research, one in 18 adult women in the US is a business owner. Women-owned businesses employ one in seven working Americans.
